

EHS EQUIPMENT/LINE RELEASE CHECKLIST				
New Product Process ☐		Product Process Change ☐		
New Equipment/Fixture ☐		Equipment/Fixture Modification ☐		
Equipment/Line No.:		Equipment OEM Contact:		
Product/Process Name:		Equipment/Line Location:		
Inspection Date:		Inspection Conducted by:		
No.	Check Items	STATUS		Remarks
		Yes	No	
I. GENERAL				
1	Is the equipment manual available & provided to operator/technician?	☐	☐	
2	Is the operator/technician certified in the equipment/process?	☐	☐	
3	Is there an approved Process Work Instruction?	☐	☐	
4	Does the area provided with adequate passage way?	☐	☐	
5	Are the walkways/aisles free of obstruction?	☐	☐	
6	Is there an emergency evacuation area posted?	☐	☐	
7	Is there fire extinguisher/fire hydrant available within 5 meters?	☐	☐	
8	Is there smoke or heat detector and sprinkler in the area?	☐	☐	
9	Does the area uses shop/hot tools? Appropriate cover/holder provided?	☐	☐	
10	Is there fumes/smoke generated by the process e.g. soldering?	☐	☐	
11	Is the area provided with proper ventilation? Exhaust system?	☐	☐	
12	What's the actual Temperature & Humidity in the area?	☐	☐	
13	Does the exhaust velocity pass the standard 1.0 m/s?	☐	☐	
14	Does the process generate high noise level (above 90dBA)?	☐	☐	
15	Is the general area properly illuminated (at least 300 lux)?	☐	☐	
16	Is the process properly illuminated (at least 500 lux)?	☐	☐	
17	Does the machine have moving/rotating parts?	☐	☐	
II. MACHINE SAFETY				
16	Does the machine have moving/rotating parts?	☐	☐	
17	Are there appropriate safeguards to these moving parts?	☐	☐	
18	Machine cover with interlock switch	☐	☐	
19	Sensors/Dual Switches	☐	☐	
20	Does the machine/equipment have an Emergency Shut-off Button?	☐	☐	
21	Does the Emergency Shut-off Button work?	☐	☐	
22	Is the Emergency Shut-off Button properly labeled & visible?	☐	☐	
23	Does the operator/technician know where & how it works?	☐	☐	
24	Does the machine/equipment have sharp edges & corners?	☐	☐	
25	Is there a machine/equipment history log posted?	☐	☐	
26	Is there a clear maintenance ownership of the equipment?	☐	☐	
27	Is there a Preventive/Predictive Maintenance Schedule?	☐	☐	
III. ELECTRICAL SAFETY				
26	Is the machine provided with main circuit breaker? Properly labeled?	☐	☐	
27	Does the operator & technician know the location of the breaker?	☐	☐	
28	Can the main power switch be locked out?	☐	☐	
29	Is the assigned Technician trained in LOTOTO?	☐	☐	
30	Does the assigned Technician have individual lock & tag?	☐	☐	
31	Is LOTOTO consistently performed during maintenance?	☐	☐	
32	Are electrical wirings/cables properly insulated & harnessed?	☐	☐	
33	Are electrical outlets properly labeled (110/220V)?	☐	☐	
Overall Remarks:				
Note:
